

Adult Addiction Services

The Nord Addiction Service Teams accept the need for either primary (integrated) or secondary (relapse prevention) treatment delivery plans. From the initial assessment through discharge to aftercare, every effort is focused on giving clients the greatest opportunity, and widest assortment of tools and support for long-term recovery: tools that go beyond self-motivation, medication compliance and addiction education.

The Nord Center encourages clients to obtain additional support through 12-step programs.

The Nord Center is accredited by: Ohio Department of Alcohol and Drug Addiction Services

Workplace Service

For clients who are seeking services as a result of a problem in the workplace, the employee must call for the appointment. With the employee's permission, The Nord Center can keep the employer apprised of the client's treatment status.
