Thank you for sending a speaker to our SafetyTown Program this year. Tom did an excellent job presenting the information to the kids and was very good at interacting with them and holding their attention. Although, we missed Mari, it was nice to have this year's program presented by a male. Our enrollment this year was almost 2/3rds boys, so I was glad for the opportunity for them to observe another male role model in addition to our Resident Officer, Dean Mayer.

Thank you for your continued dedication to our program. We feel strongly that this presentation is one of our most important lessons and are so glad to have your support.
